LIVE SOFA

Creiamo divani che nascono da una visione di design ecosostenibile e dal sapiente lavoro delle nostre mani, per offrire un'inconfondibile comodità e comfort. Ciò significa fare del nostro meglio con un impegno quotidiano per rispettare alti standard produttivi rigorosamente made in Italy e ponendo particolare attenzione all'ambiente nell'utilizzo di materiali per soddisfare qualsiasi esigenza abitativa.

Il marchio LIVE SOFA nasce grazie all'esperienza trentennale nel settore artigianale dell'imbottito, artigianalità che viene espressa in tutte le sue peculiarità nella nuova Collezione 2021 presentata in questo volume.

Pregiate pelli, tessuti e pratici tessuti antimacchia sono a corredo della collezione per realizzare un divano come un abito sartoriale che la vostra casa potrà indossare per lungo tempo.

Un divano da vivere in ogni momento della giornata!

Our sofas are conceived through a vision of eco-sustainable design and skilful hand-crafting, to offer unique comfort. For this, we do our best every day to respect the high standards of our exclusively Italian production, paying particular attention to the environment with our choice of materials to satisfy all living space requirements.

The LIVE SOFA brand is the result of thirty years of experience in the field of upholstered furniture craftsmanship that is expressed in its many different ways with the new 2021 Collection presented in this volume.

Prestigious leathers and fabrics as well as practical stain-resistant fabric are used for the collection to create a tailor-made sofa that will furnish your home for many years.

A sofa to be enjoyed at any moment of your day!

TESSUTI

Ricercati, resistenti e antimacchia: i tessuti dei nostri rivestimenti si riconoscono al primo tocco e la loro piacevolezza al tatto valorizza il design dei divani. A un'accurata selezione dei materiali, seguono le fasi di taglio e cucito, eseguite rigorosamente a mano a garanzia di assoluta artigianalità del prodotto.

FABRICS

Valuable, resilient and stain-resistant: the fabrics we use for our upholstery are pleasant and enjoyable at first touch, adding value to the design of our sofas. A careful choice of materials is followed by the sewing and cutting stages of production, carried out exclusively by hand to guarantee absolute craftsmanship.

RIVESTIMENTI

PELLI

I nostri mastri conciatori selezionano con cura le pelli migliori da allevamenti bovini certificati e ne esaltano la bellezza, tirandole a mano e sottoponendole a trattamenti specifici per renderle sicure e atossiche. L'intero processo avviene in osservanza delle norme ambientali europee, tra le più restrittive al mondo.

LEATHER

After selecting the best leathers from certified cattle farms, our master tanners work them by hand with special treatments to enhance their beauty, rendering them safe and non-toxic. The entire process is carried out in accordance with European environmental regulations, which are among the strictest in the world.

ECOSOSTENIBILITÀ

L'intero processo produttivo è caratterizzato da un'attenzione particolare all'ecosostenibilità e al rispetto della salute del consumatore e dell'ambiente. A partire dalle materie prime, tutte rigorosamente testate e prodotte nel rispetto delle leggi vigenti. Per la realizzazione delle strutture dei nostri divani utilizziamo legno biodegradabile e riciclabile, mentre per le imbottiture ricaviamo poliuretano espanso con procedure che non arrecano danni all'ozono.

ECO-SUSTAINABILITY

The entire production process is carried out with close attention to eco-sustainability and full respect for consumers' health and for the environment. Starting from our raw materials, which all undergo strict testing and are produced in accordance with regulations in force. We use biodegradable and recyclable wood for the structure of our sofas, and procedures that are not harmful to the ozone layer to produce the polyurethane foam for padding.

COMFORT

La cura artigianale della manifattura si unisce alla ricerca e sviluppo di materiali innovativi, performanti e certificati: imbottiture derivate da poliuretani espansi di ultima generazione vengono combinate in densità variabile per realizzare il comfort più adatto alle esigenze dei nostri clienti, mantenendo nel tempo sia la forma che l'elasticità originali.

COMFORT

The care and craftsmanship of our production combines with research and development of materials that are innovative, high-performance and certified: latest-generation polyurethane foam padding in variable densities to create the most suitable comfort for the requirements of our clients, maintaining both the original shape and elasticity over time.

Elementi indipendenti e infinite composizioni adattabili al meglio per tuo ambiente living. Schienali liberi per poter avere un personale comfort in ogni collocazione. Ogni elemento può essere personalizzato nel rivestimento sia in pelle che in tessuto.

Independent elements and infinite compositions, that adapt to your living space. Free-moving backrests for your comfort in any situation. The leather or fabric upholstery of each element can be customised.

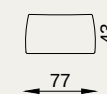

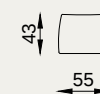

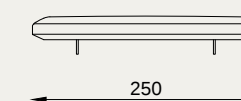

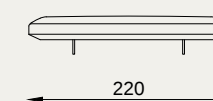

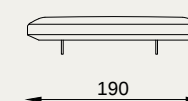

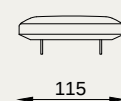

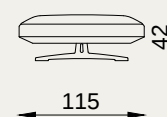

TECHNICAL INFO

Il modello Vanity è realizzato esclusivamente in versione componibile ed è composto da una serie di panche e da schienali posizionabili sulla seduta a piacere. La struttura è realizzata con legno massello di abete abbinato a pannello di particelle di legno grezzo biodegradabile. L'imbottitura della seduta è realizzata in poliuretano espanso di densità 30 comfort. Gli schienali con imbottitura in poliuretano espanso di densità 25 sono dotati di una piastra in metallo e tessuto antiscivolo nel fondo in modo tale da permettere un fisso stazionamento sulla base durante l'utilizzo. Rivestimenti a scelta in pelle con trapuntatura oppure in tessuto sfoderabile. Slitta in metallo finitura antracite per le basi, per l'elemento ad angolo esclusivamente con piede in metallo in finitura antracite (non è disponibile la slitta per elemento angolare).

The Vanity model is only available in modular version and is made up of a series of benches and backrests to be positioned as preferred. The structure is made in solid pine wood together with panels of biodegradable raw wood particle board. The seat padding is in 30 density comfort polyurethane foam. The backrests in 25 density polyurethane foam have a metal plate and non-slip fabric at the bottom so that they remain in place during use. Upholstery in quilted leather or removable fabric. Metal cantilever base with anthracite finish and, only for the corner unit, a metal foot with anthracite finish (the cantilever base is not available for the corner unit).

Un fascino senza tempo avvolge il divano Chester Large, divano che declina il capitonné moderno mantenendo un andamento classico che lo trasforma in un nuovo evergreen.

CHESTER LARGE

designer / Studio DC

A timeless appeal surrounds the Chester Large model, a sofa with a contemporary capitonné effect, that interprets this classic feature in a new evergreen design.

..... CHESTER LARGE

CHESTER LARGE

Dim. 276x100 – Riv. CAROLA col. 017

Mani sapienti realizzano questo divano dove il capitonné diventa protagonista assoluto. Disponibile anche con il cuscino di seduta.

*Handcrafted with skill, the capitonné feature of this sofa creates a strong effect.
Available also with a seat cushion.*

..... CHESTER LARGE

Dim. 255x100 – Riv. MAYA Col. 7306 RHINO

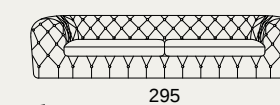

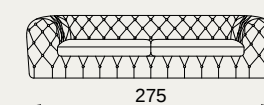

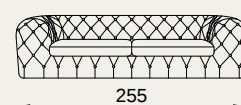

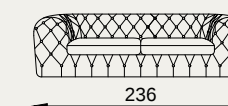

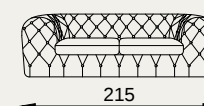

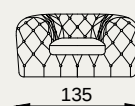

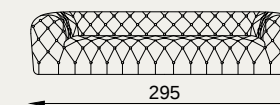

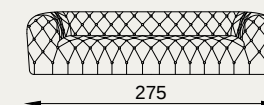

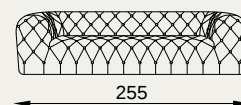

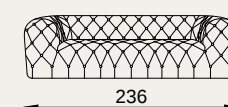

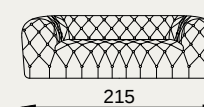

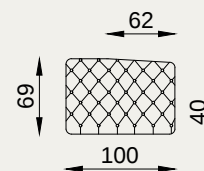

TECHNICAL INFO

Chester large è un divano di grande artigianalità realizzabile esclusivamente in versione fissa. Il capitonné è realizzato su tutta la struttura ad esclusione della seduta nella versione con cuscino. La struttura è realizzata con legno massello di abete abbinato a pannello di particelle di legno grezzo biodegradabile. Il molleggio della seduta è composto da cinghie elastiche. Schienali realizzati in poliuretano espanso densità 28 e la versione cuscino sfoderabile la seduta di densità 30. Possibilità di rivestimento in pelle o tessuto e struttura non sfoderabile. Piede a scomparsa.

Chester large is a sofa of high craftsmanship made exclusively as a fixed structure. The capitonné effect covers the whole structure except for the seat in the version with cushion. The structure is made in solid pine wood together with panels of biodegradable raw wood particle board. The seat suspension is with elastic webbing belts. The backrests are in 28 density polyurethane foam while the version with removable cover is 30 density. Option of leather or fabric upholstery, non-removable. Hidden feet.

CHESTER LARGE

Morbide linee arrotondate creano un design avvolgente e ricercato per questo classico intramontabile, capace di impreziosire sia gli ambienti classici che quelli moderni.

ASTOR 2

designer / Studio DC

Smooth rounded lines for an appealing and sophisticated design for this classic evergreen sofa that enhances both classical and contemporary rooms.

..... ASTOR 2

ASTOR 2

Dim. 225x96 – 200x96 – Riv. SPESSORATO Col. 3010 IVORY

Astor classe dal carisma inconfondibile e unico per un divano di alta manifattura artigianale.

Unmistakable and unique charisma and class for Astor, a sofa of high craftsmanship.

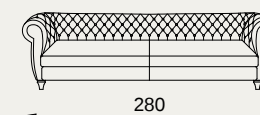

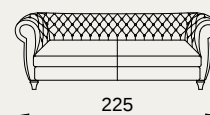

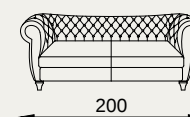

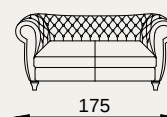

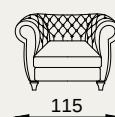

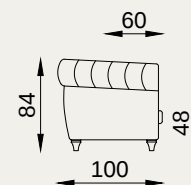

• • • • • TECHNICAL INFO

Il modello Astor 2 dalle forme molto generose è realizzabile esclusivamente nella versione fissa. Schienale e braccioli in capitonné ne danno un elegante profilo. La sua struttura è composta da legno massello di abete, abbinato a pannello di particelle di legno grezzo biodegradabile e il molleggio della seduta è costituito da cinghie elastiche. Imbottiture schienali in poliuretano espanso densità 35 e seduta di 30/25. Possibilità di rivestimento pelle e tessuto sfoderabile sono nei cuscini di seduta. Piede in legno tinto wengé di serie, a richiesta in finitura noce oppure finitura argento oppure oro.

The generously-sized Astor 2 model is available only in the fixed version. The capitonné backrest and armrests create an elegant look. The structure is made in solid pine wood together with panels of biodegradable raw wood particle board while the seat suspension is with elastic webbing belts. The backrest padding is 35 density polyurethane foam while the seat is 30/25. Option of leather upholstery or fabric removable only for the seat cushions. Wooden feet with wenge finish as standard or walnut on request or silver or gold finish.
